         Code 

```
duplicates = [item for item in set(my_list) if my_list.count(item) > 1]
```

```
print(duplicates)
```

```
['python']
```

```
[42]: my_string = "santosh kawade"
```

```
string_length = len(my_string)
```

```
print(f"count for string is {string_length}")
```

```
count for string is 14
```

```
[43]: lis = [1, 2, 5, 3, 4, 8, 9, "lis", "a"]
```

```
list_length = len(lis)
```

```
print(f"count for list is {list_length}")
```

```
count for list is 9
```

```
[ ]:
```
